

PRESSURE WASHER HOSE

PRESSURE WASHER HOSE
ARM-A-FLEX™ (HOT-WATER)

It's an undeniable fact: Most rubber pressure washer hoses wear from the outside in, rather than the inside out. And in some applications that can happen way too fast. Wooden decks, asphalt roofs and surfaces and concrete. They can all tear up a hose cover. Introducing ProPulse™ Arm-a-Flex™ with a specially engineered ultra-high molecular weight jacket designed to extend hose cover life by up to ten times.

NOT FOR STEAM
